Legend:

***** = Universal Medication Policy

New = Newly developed policy was adopted

Updated = Existing policy was reviewed and revised

Reviewed = Existing policy was reviewed; no changes made

Replaced = Policy was replaced by a new or different policy

Retired = Policy discontinued and removed from active management

For more detailed information about these updates, please refer to the [Medication Policy Summary of Changes – Q4 2025](#) for a comprehensive overview of the latest revisions.

Important Notice:

Medication Policies are developed as needed, regularly reviewed and updated, and are subject to change. Inclusion of a medication within a Medication Policy does **not** guarantee coverage. Coverage determinations must be made in accordance with the benefit plan.
